Want to create great things?

LINEX®

Linex

At a glance

LINEX was founded by a young man studying to be an engineer.

In 1923 he started making his own drawing and measuring tools for him and his fellow students. He was not satisfied with the quality available on the market.

In 1935 the company LINEX was officially founded and modern production facilities was built.

LINEX has focused on high precision drawing materials and has added additional product lines to the brand over the years

LINEX is represented in more than 50 countries around the World and we consider our selves a global brand.

Our strategy

Changing markets and consumer needs.
Due to the new digital possibilities used in technical drawing, the need for manual writing and drawing materials for professionals is declining.

Keeping the leading role for drawing, writing and hobby materials for students and professionals trough new products and convenient solutions.

Our future – the children:

- Providing good affordable products for both school and private use.
- Helping children to understand theoretical educational skills – our Active Learning concept.
- Equipment for educational institutions on all levels.

Why?

We help and inspire people to create better results.

How?

We enhance performance of children and adults by merging, learning, creativity and precision.

What?

We develop the most accurate and user friendly learning, measuring and drawing tools.

LINEX makes learning fun

Math doesn't have to be all about tricky numbers on a piece of paper. **Linex Active Learning** tools activate the children, making math both easier and a lot more fun to learn.

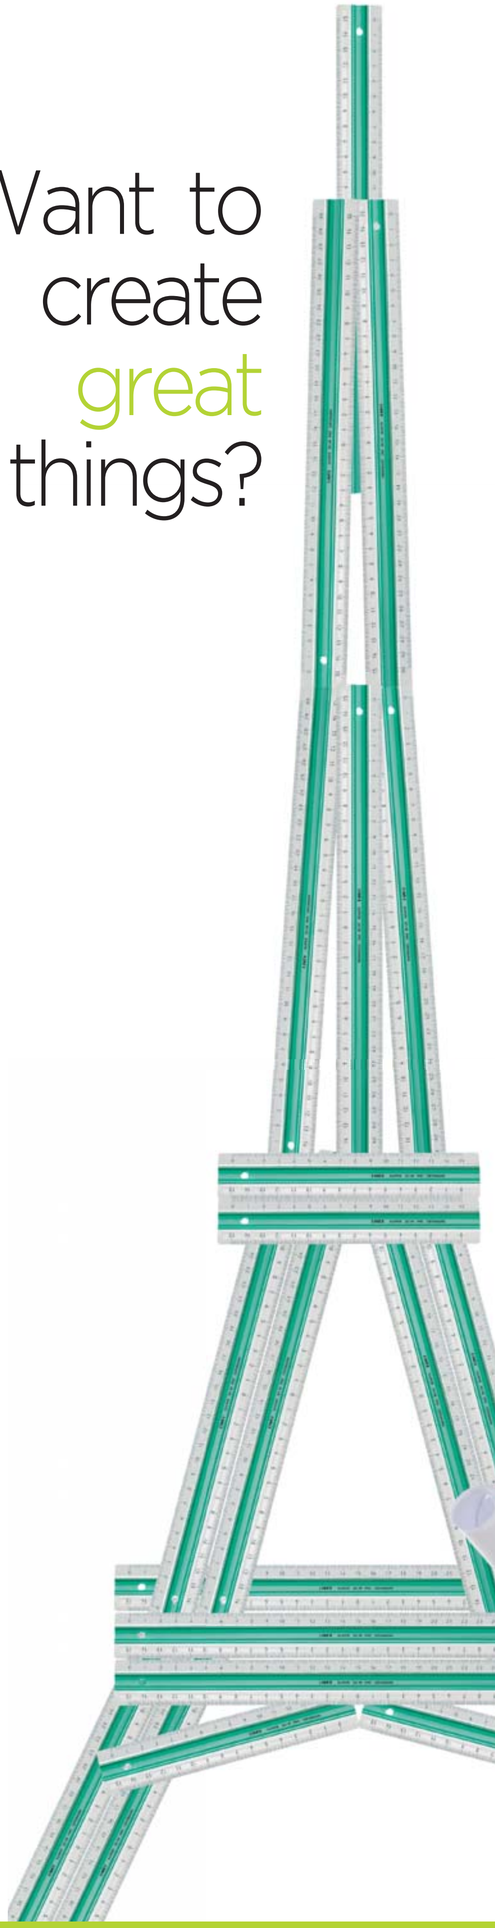
Super Series

Want to create great things?



SUPER SERIES ANTI SLIDE

Our legendary Super Ruler has achieved national and international recognition and its resilient design still makes it an international best-seller. It includes a unique slide/antislide principle, which makes it far more functional and efficient than traditional rulers. A built-in rubber strip grips the underlying surface and the ruler locks itself firmly in place. By slightly tilting the ruler, it is easily repositioned. The Super Ruler has found wide use as it is suitable for both drafting, measuring and following lines. Material: glass-clear acrylic with coloured centre.

One rubber strip prevents the ruler from sliding. When tilting the ruler, the rubber is lifted from the paper and the ruler slides smoothly on the acrylic rib.

Two rubber strips ensure that the ruler lies firmly on the paper.

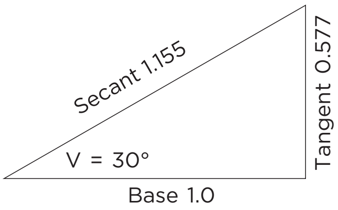
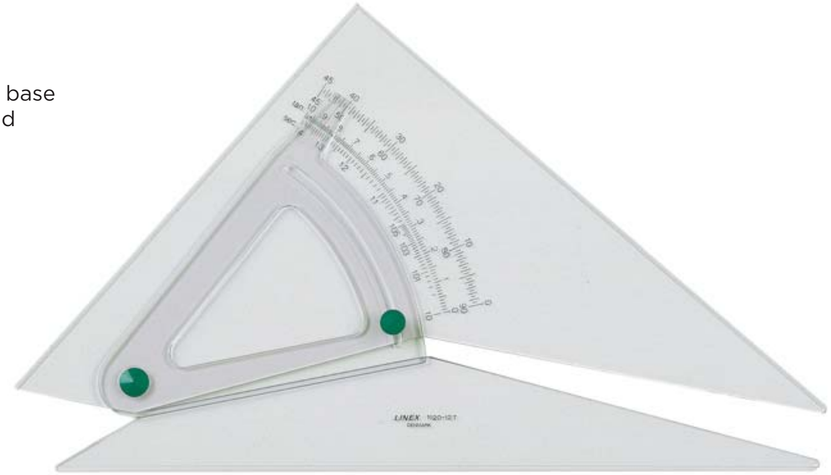
Adjustable Set Squares

All angles between 0-45° are automatically indicated. Additionally, for length of base = 1, the length of the secant and the height of the tangent are indicated. Example: V = 30°, tangent = 0.577, secant = 1.155 and base = 700 mm, then height = 0.577 x 700 = 403.9 mm and length = 1.155 x 700 = 808.5 mm



Secant 1.155
V = 30°
Tangent 0.577
Base 1.0



Adjustable Set Squares

With bevel ▬
The graduated arch, manufactured in one part with the arm, is divided in half degrees, tangent and secant.
Material: glass-clear SAN.

Adding play to math

Studies show that many children learn math better by using their sense of touch than by staring into a book. Linex Active Learning tools allow children to get to grips, making math both easier and more fun.

Math doesn't have to be all about tricky numbers on a page.

HAMELIN

ActiveLearning

Base 10 Set, Plastic

Product info:

- Contains 121 parts
- 1 blue cube (1000), 10 green falts (100), 10 yellow rods (10), 100 red units (1)
- Used for pre-school/primary school
- Manual included

Product use:

- Enhance understanding of the decimal system as well as additin, subtraction, number sense, percentages and counting.
- The set is color-coded to help the students quickly differentiate place value by comparing the red units, yellow rods, green flats and the blue cube.
- The students are helped towards a better understanding of these abstract concepts by seeing, touching and comparing physical models of units, tens, hundreds and thousands.

Single Cubes - Inter locking, Plastic

NEW

Product info:

- Canvas bag of 1000 pcs. or retail bag of 100 pcs.
- 5 colours, 10x10 mm.
- Used for pre-school/primary school and middle school.

Product use:

- Use for counting, building and more.
- Can be connected on 5 sides.

NEW **Order code: 1000 pcs. 400082141/ 100 pcs. 400085350**

Linex Arithmetic String with 20 Beads

Product info:

- Expandable string with 20 beads in red and white
- Beads arranged in 5
- Beads made of recycled plastic
- 45 cm long
- The beads will stay in place when the string is held up or down
- Used for pre-school/primary school

Product use:

- Learn how to count.
- Ideal for the start of number work with younger children and students.
- Example: Choose a number, e.g. 7, then have the students move a range of 5 beads and then an extra 2 beeds.

Arithmetic String with 100 Beads

Product info:

- Expandable string with 100 beads in red and white
- Beads arranged in 10
- Beads made of recycled plastic
- 150 cm long
- The beads will stay in place when the string is held up or down
- Used for pre-school/primary school

Product use:

- Learn how to count.
- Ideal for the start of number work with younger children and students.
- Example: Choose a number, e.g. 27, then have the students move 2 ranges of 10 beads and then an extra 7 beeds.

1 m Number Line

Product info:

- Durable number line numbered 1-1000
- Length 1 m, width 2,5 cm
- Including red and blue clamps
- Used for pre-school/primary school

Product use:

- Learn numbers and numeric patterns (1-1000).
- With the red and blue clamps, you can illustrate certain numbers or ranges.

Order code: 400065123

5 m Number Line

Product info:

- Durable number line numbered 1-1000
- Length 5 m, width 9 cm
- Including red and blue clamps
- Adhesive Velcro stickers supplied to fasten the line on the wall
- Used for pre-school/primary school

Product use:

- Learn numbers and numeric patterns (1-1000).
- With the red and blue clamps, you can illustrate certain numbers or ranges.

Split Box

Product info:

- Size: 12x7,5x1,5 cm
- Including transparent lid and 20 red beads
- Made of recycled plastic
- Used for pre-school/primary school and middle school

Product use:

- Can be used with 2 or 3 parts with beads from 2 to 20. Shake the box and get 2 or 3 subsets. Close 1 or 2 lids and learn to count, add and subtract. Uncover the lid and check your results.
- Fill the middle compartment with e.g. 8 beads. Close both lids and shake. You get 5 beads in the right compartment. How many beads are in the middle? Is 3 correct? Uncover lid and see the result.

Teaching Clock Set

Product info:

- Clock set in plastic for teaching
- The set includes: 1 large clock with stand and 24 small clocks for students
- Adjust hands on both the back and front
- Engraved numbers
- Used for pre-school/primary school
- Manual included

Product use:

- Ideal for children who are ready to learn how to tell time.

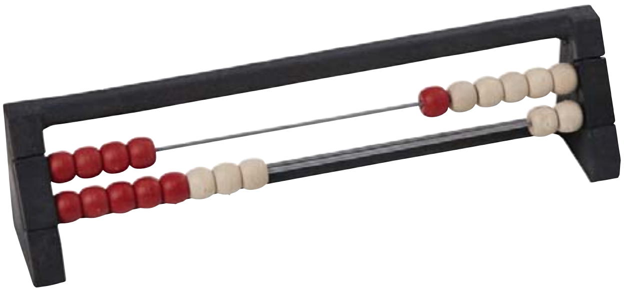
Count & Numbering



Small Abacus

Product info:

- Solid abacus with 20 beads to help students to understand simple math
- Sloped frame in recycled wood
- Frame made out of one piece, and therefore very solid and stable
- Beads in red and white made of recycled wood
- Size: 24,5x4,5x6 cm
- Used for pre-school/primary school

Learning stage
✓ ●

Product use:

- Simple abacus to illustrate many counting techniques including adding and subtracting and counting to 20.

Order code: 400065131

Active Learning makes math lessons more fun

Large Abacus

Product info:

- Solid abacus with 100 beads to help students to understand simple math
- Frame made out of one piece, and therefore very solid and stable
- Beads in red and white made of recycled wood
- Size: 25x17x4,5 cm
- Used for pre-school/primary school

Product use:

- Simple abacus to illustrate many counting techniques including adding and subtracting and counting to 100.

Caring and quality

It’s important to us that you feel secure with the products your students use. Therefore we produce the Linex Active Learning tools according to the highest standards of quality and safety. Our materials are carefully selected in order to ensure the very best for your children. Moreover, we strive to reduce the environmental impact and use recycled materials as much as possible.

Magnetic Math Pictures

Product info:

- 210 magnetic pieces
- 27 different images, 100x100 mm.
- Numbers 0-9
- Signs +, -, >, <, =
- Used for pre-school

Product use:

- Learn mathematics by using a range of illustrations to make learning more visual.
- Magnetic backing makes it easy to display them on a board so many students can follow along together.

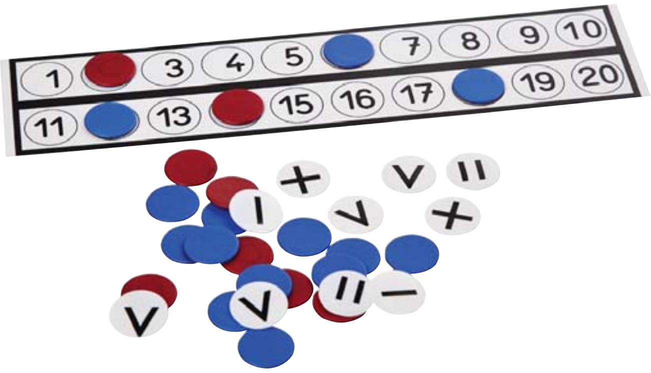
Counting Chips and Board



Learning stage
○ ✓

Product info:

- Set of 22 counting chips , 10 arithmetic signs and one board
- Counting chips in red and blue
- Board printed with the numbers 1-20 on one side and with 20 circles one the other side
- Board: 30x7 cm
- Arithmetic signs 2 +, -, <,>, =
- Used for middel school

Product use:

- Practice basic counting and numeracy skills using counting chips.
- Learn to count and sort, identify patterns and discover positive and negative integers using the counting chips and board.

Money Set - Nordic kr.

Product info:

- Set of 160 Nordic coins and 130 Nordic banknotes
- Coins: 20x50 øre, 40x1 kr., 40x2 kr., 20x5 kr., 20x10 kr., 20x20 kr.
- Banknotes: 10x20 kr., 36x50 kr., 36x100 kr., 24x200 kr., 15x500 kr., 12x1.000 kr. designed with Nordic cities
- Plastic / paper
- Used for pre-school

Product use:

- Enhance understanding of the value of money
- To learn about the private economy
- Makes it visual about what different things cost

Geometrical Shapes with Forms and Sections

Product info:

- 6 geometric shapes made of recycled plastic
- Height 10 cm
- 5 colored lids, 6 forms of durable plastic, 6 sheets for overhead projector and seperat sections
- Used for middle school
- Manual included

Product use:

- To identify, describe and calculate base areas, top surface of area, side surface, forms, volume, surface, surface of revolution and axis.
- The teacher explains basic characteristics of each shape so the students easily can recognize the terms when they compare the shapes.
- With separated sections you can show several segments and you can calculate and compare several volumes.

Order code: 400065103

Geometrical Shapes

Product info:

- 10 geometrical shapes made of recycled plastic
- Height 15 cm
- Used for middle school
- Manual included

Product use:

- This set can be used to identify relationships between the volumes of the individual shapes.
- The shapes are also suitable for helping students to recognize three-dimensional geometrical forms, edges, corners and diagonals.
- Create better understanding of volume by filling the shapes with water or sand.

Tangrams

Product info:

- 28 tangrams
- 10x10 cm
- 4 different colors
- Durable plastic
- Used for middle school

Product use:

- Provides a fun way for children to explore geometry, shapes, colors, patterns, and designs.
- The students can create geometric shapes, tangram puzzles (form animals and objects as shown) and symmetrical figures.

Order code: 400065122

Geometric Mirror Set

Product info:

- Set of 10 plastic mirrors with a refelcting side
- Size: 15x10 cm
- Round corners
- Used for pre-school/primary school and middle school

Product use:

- For optical and reflection exercises.
- Important teaching aid for mathematical education to see mirror pictures, symmetries or geometrical shapes.
- Can be used to build patterns, read mirror writing and other reflecting experiments.

Order code: 400065125

Transparent Geometric Mirror

Product info:

- Reflecting mirror in recycled plastic
- Size: 15x10x6 cm
- Sloped drawing edge
- Used for pre-school/primary school and middle school

Product use:

- Look through the transparent mirror and draw the reflection of the picture on the backside.
- Can be used to read mirror writing or copy a picture in the mirror.
- Can be used by both left- and right-handed teachers and students.

Order code: 400065126

Double-sided Geometric Boards

Product info:

- Set of 6 green double-sided geoboards
- Size: 15x15 cm
- 25 pins on one side and 24 pins on the other side in form of a circle
- Rubber bands
- Used for middle school
- Examples included

Product use:

- Geoboards are useful for teaching shapes, angles, area and perimeter.
- Manipulate rubber bands to explore lines, shapes and pictures.

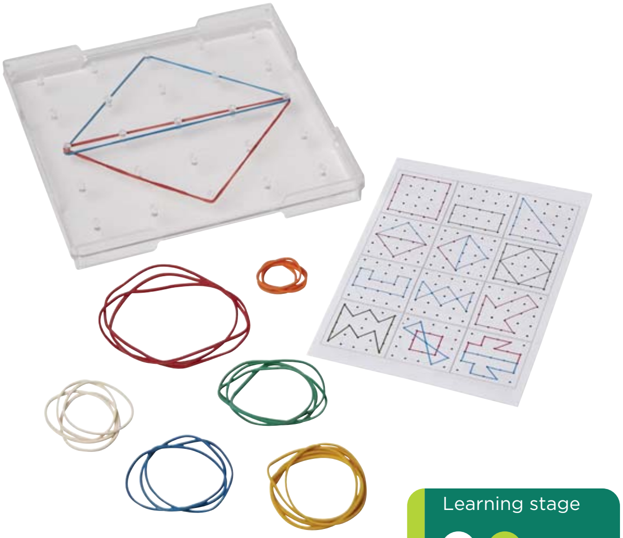
Shapes & Measuring



Geoboard

Product info:

- One-sided transparent square board made of recycled plastic
- Size: 15x15 cm
- 25 pins
- Including 25 rubber bands in four colors and two sizes with 12 examples
- Used for middle school
- Examples included

Product use:

- Geoboards are useful for teaching shapes, angles, area and perimeter.
- Manipulate rubber bands to explore lines, shapes and pictures.

The products are simple and easy for the children to use

Measuring Cup Set

Product info:

- Set of 6 measuring cups in recycled plastic
- The set includes: 1000 ml, 500 ml, 250 ml, 100 ml, 50 ml og 10 ml
- Can be used up to 135° C
- All measuring cups has a marked scale
- Used for middle school

Product use:

- Learn about volume and measurements.

Order code: 400065139

Learning stage

○ ✓

Fraction Pieces

Product info:

- 10 fraction sets in solid plastic
- Each fraction has its own color and is marked
- Shows 1/1, 1/2, 1/3,1/4, 1/5, 1/6, 1/8, 1/10, 1/12, 1/20
- 10 cm in diameter
- Used for middle school

Product use:

- Learn about fractions in an illustrative manner.

Weight & Balance

Learning stage

✓ ○

Balance

Product info:

- From 0,5 gram and up to 2 kg
- Size: 38x13x13 cm
- Used for pre-school/primary school
- Manual included

Product use:

- A very precise balance made of recycled plastic.
- Learn about weights and units.

Order code: 400065106

Weight

Product info:

- Set of 12 weights of cast iron and brass.
- Cast iron weights: 1x500 g, 1x200 g, 2x100 g
- Brass weights: 1x50 g, 1x20 g, 2x10 g, 1x5 g, 2x2 g, 1x1 g
- Total weight: 1 kg.
- Used for pre-school/primary school

Product use:

- To be used with the balance.
- To learn about weights and units.

Want to create great things?

For ultimate precision – X-actly!

Linex has always been synonymous with ultimate precision, offering high quality drawing and measuring products for professionals, office workers and students since 1935.

Boasting a long and proud history of product development, Linex continues refining the product range to ensure that customers get precision and reliability every time, with every purchase.

And now, in keeping with our focus on refinement, our classic green logo colour has been updated with a fresh touch of spring green. New logo colour, same Linex quality.

LINEX®

HAMELIN owns the brands Elba, Oxford, Pierre, Bantex, Linex and Unilux. We strive to satis-fy the needs of our customers through maintaining continuous focus on quality, innovation and design.

X-actly!
